I am a dedicated Frontend Developer with a strong engineering background and over a year of experience. Currently interning at Metric Tree Labs, I specialize in creating dynamic, responsive user interfaces using modern web technologies. Passionate about technology and web development, I transitioned into software engineering to blend problem-solving skills with creativity. I am committed to building high-quality digital solutions, collaborating with teams, and continuously learning to deliver exceptional user experiences.

WORK EXPERIENCE

Frontend Developer Intern
Metric Tree Labs

12/2023 - Present   *Kochi*

Achievements/Tasks

- Working closely with designers to ensure the correct implementation of UI components, layouts and visuals.
- Developing user-friendly web pages and features to effectively optimize user experience.
- Implementing web accessibility standards and developing suitable web content for all browsers, platforms, and devices.
- Building reusable code that is scalable and optimized for performance.
- Working with version control systems and Source Code management tools like GIT to keep track of code.
- Testing, debugging and optimizing web applications with different tools and techniques.
- Leveraging web frameworks such as React and other JavaScript libraries.
- Utilizing industry best practices for mobile-first and responsive web design
